

PATHWAY ORIGINS

This Medical Careers Pathway was developed as part of a network of schools involved in the Butte-Glenn Career Pathways Consortium (BGCPC) Grant through Butte College.

The purpose of this grant is to integrate core academic and career-focused curricula in order to enhance career readiness within the medical field.

OUR PARTNERS

The Orland High School science department has teamed up with the Health Workforce Initiative (HWI) and are using Health and Science Pipeline Initiative (HASPI) curriculum. This medically-based curriculum aims to increase healthcare career awareness, improve science proficiency, and ease student transitions into post-secondary medical programs.

For more information, please visit www.HASPI.org

ORLAND HIGH SCHOOL

MEDICAL CAREERS

**Preparing students
for success in the
healthcare industry**

OUR PROGRAM

The Medical Careers Pathway at Orland High School is specifically designed for students considering a future in any level of medicine.

The Medical Careers Pathway provides students with high quality educational courses that expose students to medical concepts and terminology while providing students opportunities to explore a wide variety of professions within the healthcare industry.

This pathway affords students comprehensive academic foundations and skills in order to prepare them to
